

Power Supply Kit - Technician

● CT3374A

FEATURES:

- High Quality Retractable Sheath Leads
- Large Spade Lug Adapters
- 12A Lead Current Capacity
- Black & Red Component Colors
- Storage Pouch

BASIC INTERCONNECTION KIT FOR TESTING WITH POWER SUPPLIES:

Cal Test's power supply accessory kit, model CT3374A, provides users the necessary connection leads and adapters to begin using the instrument effectively.

The kit includes 1 black and red pair of 1-meter 4mm Stacking Banana Plug leads with retractable safety sheaths, 1 pair of 4/6 mm Spade Lugs, and 1 pair of Alligator Clips with 4 mm jacks, just the right accessories for power supply work in education, design or performance verification.

The lead jackets are silicone for flexibility and burn resistance. The retractable sleeve banana plugs will fit both standard banana jacks and binding posts.

Model CT3374A, Power Supply Kit is suitable for instruments from Agilent®, B&K Precision®, Xantrex®, and many others. Find the recommended instrument for model CT3374A, or Cal Test's others power supply kits...

CT3375A – Enhanced Power Supply Kit – Senior Technician
