

# Instrument Grade BNC Adapter Kit

## ● CT3378

### **INSTRUMENT GRADE BNC ACCESSORY KIT FOR RF & MICROWAVE INSTRUMENTS:**

Model CT3378 Instrument Grade BNC Accessory Kit provides a full range of BNC to N Type coaxial adapters suitable for popular RF instruments from Agilent®, B&K Precision® & Tektronix®. The kit contains the just the right mix of high performance adapters for every day testing as well as instrument performance verification and calibration work. The kit is comparable to Agilent's Model 11854A BNC Accessory Kit.

The adapters are of Cal Test's Instrument Grade quality that easily meet or exceed an instrument manufacturer's recommended

accessories specifications. All kit components feature precision machined interfaces, 50Ω impedance and low VSWR to ensure accurate and repeatable measurements.

The kit is provided in a convenient foam-lined case for easy component selection and storage.

For additional product information or cross-references visit our web site at [www.caltestelectronics.com](http://www.caltestelectronics.com).

### **FEATURES:**

- BNC to N Type 50Ω Adapters
- Precision machined Instrument Grade
- Gold plated center contacts
- Agilent 11854A cross-reference
- Storage case

### **APPLICATIONS:**

- Production Testing Stations
- R&D Labs
- Service & Repair Facilities
- Calibration Services
- RF Field Testing

### **SPECIFICATIONS:**

- *Impedance* - 50 Ω
- *Frequency Range* - see table
- *VSWR Max* - see table
- *Working temperature* - -20° to +125° C
- *Connectors:* BNC & N Type:
  - Body* - Brass, White Bronze over Silver Plated
  - Dielectric* - PTFE
  - Center Contact* - Brass or BeCu, Gold Plated
