

Zero Smog® EL

Fume extraction ideal for 1 or 2 users

With a high quality, long-life, brushless turbine, the Zero Smog® EL has a blower capacity of 220 m³/h and a high level of extraction power of 2,500 Pa, an ideal filtration solution for light duty volume extraction applications.

Optionally, with the combination of a remote On/Off switch and an electronic filter monitor with alarm, the Zero Smog® EL is able to optimize operating conditions at up to 2 work places ensuring maximum health protection for the user. Flexible Easy-Click 60 arms allow easy adjustment at the workbench.

Can be easily installed in less than 4 minutes.
